

Praise the Lord for a peaceful and joyful quarantine. Our brothers and sisters who are frontline medical staffs told us that it would take a miracle for us not to be infected. We did not know that we are miracles!

Tony is fully recovered and is getting ready to go back to HK since school is closed until the end of the semester. Guess what? He has decided to be baptized! We know a lot of you were very concerned for us, in exchange for a young man's dedication to the Lord, it is totally worth it!

---

“As a global team, our confidence during these unsettled times is in God, our Rock and Refuge. As we span the miles, we remain committed to mutual care and support for one another. Thank you for bearing witness to the hope we have in Jesus wherever you are. It is our collective desire to make Him famous and may we all continue to bring access to Jesus through our loving words and actions. We deeply appreciate your ongoing prayers and financial support as together we live each day by faith.”

Jesus loves you, so do Glen & Ivy!
