

Youth

Pray for the youth of the church as they face persecution in life.

As part of the Niger school curriculum, students are taught family economics, which includes a variety of topics to help them manage their future households. In one particular school there is a teacher who consistently harasses Christian students in her class. In one instance the teacher chastised a student's ankle length skirt because it was not close enough to the floor. She then told the other students not to befriend this girl whom she deemed immodest and immoral.

Please pray with us that these youth would know how much they are loved

by God and by the rest of the body of Christ. Please pray with us that they would have courage to continue in their faith journeys despite the teasing by other students and teachers. Pray with us that the Holy Spirit would give them abundant grace and peace for such moments.

Thank you for journeying with us and these young believers.
