

Reaching the Never Visited

Two Tuaregs became the first Christians to visit this remote village in Niger last year.

On the way to meet a radio program listener, they stopped here to share God's Word. The village chief told them they were openly welcomed because they were also Tuaregs. After a night of discussion, the believers went on to meet the radio program listener and left an SD card for him to hear more stories of truth from the Bible.

Over the last month, 15 listeners called in to express their appreciation of the Tamajaq radio programs. Thanks to your support along with other partners,

five radio stations now broadcast Bible programs in Tamajaq, the language of Tuaregs, a total of 15 times a week. These programs reach across Niger, including areas of insecurity. They can reach both terrorists and displaced Nigeriens.

One of the believers who fields calls from listeners asked that we pray for wisdom for him, to strategically share God's Word in regions never visited by Christians. He offers interested listeners more programs through WhatsApp or SD cards.

Please join us, him, and our partners in prayer for the Gospel to reach Tuaregs who have never heard the truth of Jesus Christ, that they may have the opportunity to know Him.

Thank you for your faithful partnership and prayers in reaching the unreached across Niger.
